

## **2014 Four Wheel Camper – Grandby**

### **2018 Trekmate Off-Road**

#### **Available Now**

Fully loaded camper. Covered during the winter. The plywood tub has been painted 3 times since purchase as part of preventative maintenance program. There are a few small dings from off road use, otherwise the camper is in excellent condition. Camper is washed with 303 Cleaner, waxed, and the soft side gets 303 Protectant in the Spring and Fall. Why are we selling? We are getting up there in age. My wife struggles to get up into the bed, partly to age and a severe ankle injury. Even with the speaker stand she has never been able to raise the roof. We both want more luxury items and space, with the option to still go off grid. We are looking and it will be with a manufacturer that provides a quality build like Four Wheel Camper.

Serious Inquiries Only
